RE: Site Inspection, Southwestern Portland Cement Company,
Silica #7 and #4 Claims, DOE/023/025, Juab County

Division personnel Frank Filas, Frank Jensen, and Dave Wham inspected the above referenced site on March 11, 1987. The operation consists of a quarter acre pad/excavation and a 25 foot highwall. The realigned portion of the access road to the site is approximately 4000 feet long. Total disturbance (road and pad) is approximately 2.5 acres.

File Review

DOE filed 9/29/86.

DOGM acknowledgment 10/7/86.

Operator notified Division of unauthorized road work 11/3/86.

Division granted continuing use under DOE until test sample results are known in spring 1987. If results are favorable, operator will submit MRP. If results are negative, operator will reclaim site.

No previous site inspection.
